

For more than a century, Ajinomoto Co., Inc. has pioneered the development of new and innovative technologies used to manufacture and purify pharmaceutical grade amino acids. AJIPURE® amino acids are fermented using only natural vegetable-based carbohydrates as raw materials. Ajinomoto Co., Inc. never uses raw materials of animal origin in any production process. AJIPURE® amino acids stem from over 100 years of clinical and scientific research, yielding unsurpassed quality and purity. Industry leading purification processes allow quicker absorption, faster bio-availability, proven consistency and unrivaled efficacy.* Ajinomoto Co., Inc. is the global leader in production, sales and research of amino acids used for medical, pharmaceutical, nutraceutical, sport, nutrition and health industries.

SUGGESTED DOSE: Use as directed by a health practitioner or for best results as a dietary supplement, mix one level scoop with 6-10 fl. oz of your favorite beverage. Stir, shake or blend well for 20-30 seconds or until Fusil® powder is completely dissolved. Begin drinking one half hour prior to exercise and continue drinking during and after your workout.

STIR, SHAKE OR BLEND: Fusil® is versatile in order to meet your specific needs. Unlike conventional L-Leucine, which is very difficult to mix into beverages, Fusil® is instantized through a proprietary process for superior dissolution and superior bioavailability.* Fusil® may be mixed by stirring with a spoon, by shaking in a shaker or by blending in a conventional blender.

PURE & UNFLAVORED: Fusil® is purposely unsweetened and unflavored so that you may mix it into an array of beverages or workout preparations. For improved taste, try mixing or blending Fusil® with flavored or unflavored yogurts, fresh or frozen fruits, nonfat milk, coconut shavings, mixed nuts or any other favorite ingredients. For delicious recipe inspirations visit www.ajipure.com.

FUSIL® STACKS UP: Try stacking Fusil® other AJIPURE® amino acids or other preferred supplements such as protein shakes and various powder preparations for an even more powerful boost.* For an added boost to muscular performance and development, try stacking Fusil® with Fusi-BCAA™.*

FUSIL® ADVANTAGE: Fusil® is the world's highest purity, fermented, vegetarian-source L-Leucine available on the global market. Ajinomoto Co., Inc. has been the world's leading producer of amino acids for nearly 100 years and has been producing pharmaceutical-grade amino acids since 1956. Our amino acids are trusted for clinical research and used by medical doctors, hospitals, professional & Olympic athletes and professional health care facilities worldwide.

- **HELPS** stimulate protein synthesis to build muscle*
- **PROVIDES** support against muscle loss that normally occurs during the natural aging process*
- **SUPPORTS** healthy blood sugar levels, endurance, energy and muscle recovery following physical activities*
- **INSTANTIZED** with proprietary process to provide increased beverage solubility and improved efficacy, unlike traditional L-Leucine*

SERVING SCOOP INCLUDED.
SCOOP MAY SETTLE
TOWARD BOTTOM.
1 SCOOP = 3 GRAMS.
